# Cotton: World Markets and Trade

## U.S. Exports Nearly Double Year-ago Levels Due to Growth in Exports to Asia

Accumulated exports for marketing year 2001/02 of Upland cotton reached 7.25 million 480-lbs bales as of April 4, nearly twice the level of exports last year at the same time. Three countries India, Turkey, and Taiwan account for over half the 3.5 million-bale increase while Thailand, Indonesia, Pakistan, and Bangladesh account for over a third of the increase. Exports to Mexico, the largest market for U.S. cotton, and to the Western Hemisphere in general, are nearly unchanged from the same time last year. Last marketing year exports to the Western Hemisphere accounted for 45 percent of total U.S. exports. Exports to the rest of the world are up significantly, over 180 percent.

With four months left in the marketing year, total accumulated exports are just over 71 percent of the forecast for the entire year. In order to meet the MY 2001/02 export forecast of 10.5 million bales, weekly exports must average approximately 180,000 bales. The current goal is attainable considering year-to-date exports have averaged 208,000 bales a week.

### **U.S. COTTON OUTLOOK**

This month's 2001/02 U.S. projections include higher production, domestic use and exports, resulting in lower ending stocks. Production is raised 221,000 bales, to 20.3 million, based on USDA's final Cotton Ginning report. Domestic mill use is raised 200,000 bales based recent turnaround in mill use reflecting improved economic conditions. Exports are increased 200,000 bales to 10.5 million, as export sales remain strong and exports are boosted by the reestablishment of Step-2 payments. Imports are increased to 25,000 bales. Projected ending stocks are lowered 200,000 bales to 8.3 million bales.

The U.S. estimates for 2000/01 are unchanged.

### **WORLD COTTON OUTLOOK**

The world 2001/02 situation includes higher production, consumption, beginning and ending stocks, and lower trade this month. World production is raised 401,000 bales. Production increases of 100,000 bales for Benin, Brazil and Uzbekistan and a smaller increase for Kazakhstan are partially offset by reductions for Paraguay, Cote d'Ivoire and Zimbabwe. World consumption is 702,000 bales higher at 92.7 million bales, due to increases of 200,000 bale for the U.S. and Pakistan, 100,000 bale increases for Turkey and Thailand and smaller increases for several other countries. Imports are forecast down from last month by 335,000 bales. Imports for Brazil are 650,000 bales lower 200,000 bales lower for India. Imports are increased for Bangladesh, Pakistan, Turkey and Thailand by 100,000 bales. The world export forecast is decreased 235,000 bales as increases in the U.S. and Brazil are more than offset by decreases in China Australia, Egypt, Pakistan, Zimbabwe and others. World stocks are increased 464,000 bales this month, to 44.4 million bales.

The world estimates for 2000/01 show higher beginning stocks and higher ending stocks. Higher beginning stocks are due to historical revisions for Brazil

### **COTTON PRICES**

Cotlook A Index: The A-Index, a principal measure of international cotton prices, is an average of the five lowest quotes of cotton for delivery to Northern European ports. In March, the index averaged 42.04 cents per pound, down 0.83 cents from the previous month. The African Franc-Zone quote was the lowest in the index during the four-week period, averaging 41.26 cents per pound. The Memphis quote averaged 45.68 cents per pound.

Futures Prices: May 2002 futures prices averaged 38.11 cents per pound in March, up 2.05 cents from last month.

## **U.S. COTTON HIGHLIGHTS**

Cotton Consumption: The seasonally adjusted daily rate of U.S. cotton consumption in February 2002 was 29,039 (480-lb.) bales, up from 28,344 in January. A total of 602,352 bales were consumed during the four weeks of February, compared with 559,873 during the four weeks of January. The seasonally adjusted annualized consumption rate for the month of February was 7.6 million bales, up from 7.4 million in January.

Textile mill report: Domestic mill purchases were light in March. Most mills have covered their anticipated needs through July 2002, and need only a limited amount of fill in cotton for August through October 2002. Increased demand in denim led to an improvement in demand for open-end yarn. Some mills intend to operate a full production schedule with no scheduled time off during the next few months.

Cotton Stocks: U.S. cotton stocks on hand in consuming establishments at the end of February were 351,338 bales (480-lb), up from 339,075 in January. Stocks held in public storage and compresses in February totaled 13.9 million bales, down from 15.4 million in January. Active spindles in February totaled 2.80 million, of which 1.62 million were dedicated to 100-percent cotton, compared with 3.76 million for the same time last year, with 2.03 million dedicated to 100-percent cotton. Cotton's share on the cotton spindle system in February was 81.3 percent.

U.S. cotton exports in January 2002 totaled 986,500 (480? lb.) bales, up from 924,440 bales in December 2001, and almost double (422,700 bales higher) total cotton exports in January 2001. According to the U.S. Bureau of the Census, Pakistan and Turkey were the largest destinations in January, accounting for over 142,000 bales each. Thailand, Indonesia and Mexico were other important destinations in January.

U.S. cotton imports in January 2002 came mainly from Egypt and totaled about 1,600 bales, up 1,200 bales from the previous month.

1/ Includes Cotton, Cotton Yarn, and Cotton Fabric.

2/ Total Cotton Registrations includes registrations and/or cancellations from Oct 1, 2001.

3/ Net registrations for period ending.

4/ Number in parenthesis is maximum term in months.

5/ Bolivia, Chile, Colombia, Ecuador, Peru, and Venezuela.

6/ Belize, Costa Rica, El Salvador, Guatemala, Honduras, Nicaragua, and Panama.

7/ Korea has a total Credit Guarantee of \$575 million, of which \$100 million is allocated specifically for cotton.

8/ Repayment terms are 180 days.

9/ Estonia, Latvia, and Lithuania.

10/ Barbados, St. Lucia, St. Vincent and the Grenadines, Dominican Republic, Jamaica, and Trinidad and Tobago.

11/ Argentina, Bolivia, Brazil, Chile, Colombia, Ecuador, Peru, and Venezuela.

12/ Romania and Bulgaria.

**NOTES:**

\* First registration of cotton for fiscal year.

\* Loss for countries outside the United States reflects cotton lost or destroyed while in the marketing channel. For the United States, loss reflects the difference between stocks as reported by the Bureau of the Census and implicit stocks based on supply plus total use. A negative "loss" is a positive number.

\* Loss for countries outside the United States reflects cotton lost or destroyed while in the marketing channel. For the United States, loss reflects the difference between stocks as reported by the Bureau of the Census and implicit stocks based on supply plus total use. A negative "loss" is a positive number.

\* Loss for countries outside the United States reflects cotton lost or destroyed while in the marketing channel. For the United States, loss reflects the difference between stocks as reported by the Bureau of the Census and implicit stocks based on supply plus total use. A negative "loss" is a positive number.

1/ Reflects only trade among the 12 countries of the former Soviet Union and three Baltic States.

2/ Reflects NIS trade with external trading partners.

3/ Estimate.

4/ Projection.

**Notes:**

A: Adding internal and external trade will provide a total trade figure.

B: Ending stocks may include any loss that has occurred.

C: The NIS includes: Armenia, Azerbaijan, Belarus, Estonia, Georgia, Kazakhstan, Kyrgyzstan, Latvia, Lithuania, Moldova, Russia, Tajikistan, Turkmenistan, Ukraine, Uzbekistan.
